ABOUT FOAMI FOAMI™

jMedGuard Foami Foami™ Long-Lasting Advanced Hand Sanitiser offers 24 hour protection by forming a safe and invisible antimicrobial barrier.

The jMedGuard Foami Foami™ produces an antimicrobial foam that kills germs upon application and continues to protect your hands persistently. Sanitise your hands once a day and enjoy 24 hour long-lasting antimicrobial protection. Suitable for those who have difficulty keeping up with hand hygiene routine, such as babies and children who may not be consciously sanitising their hands regularly throughout the day.

OUR VISION

Guarding you. Protecting the Future.

OUR MISSION

To revolutionize the cleaning and disinfecting product sector through innovation and development of medically effective solutions for a cleaner and safer future.
